

• ELEMENTARY SCHOOL, BAD NEUENAHR
Bad Neuenahr-Ahrweiler, DE

2025–2028

In 2021, the city of Bad Neuenahr-Ahrweiler and the surrounding area along the Ahr River suffered extensive damage from a once-in-a-century flood. Infrastructure and buildings near the river, such as the Bad Neuenahr Elementary School, were heavily impacted. This project aims to provide a new home for the growing school community, creating a future-oriented cluster school surrounded by vibrant outdoor spaces.
