2020–2026

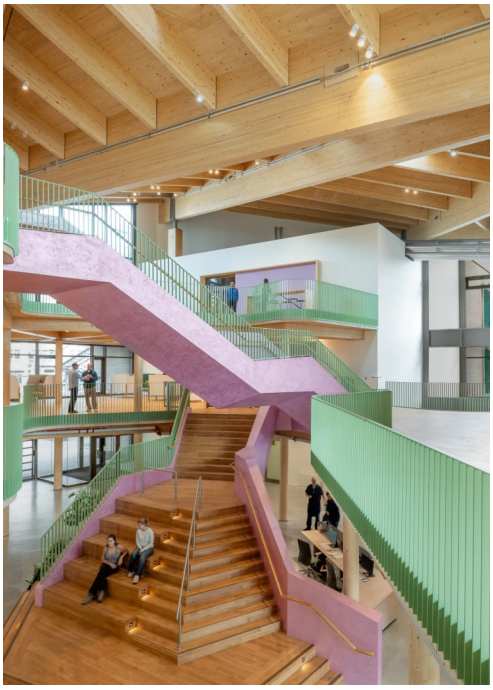

In Hamburg's northeastern district of Bramfeld, LIFE HAMBURG creates a future-oriented campus dedicated to lifelong and self-determined learning, meaningful work, and holistic well-being. Located on the edge of the Otto Group Campus, the project brings together a diverse range of educational, cultural, and community facilities, including the Academy of LIFE, an independent school, under one roof. Designed as a sustainable place for intergenerational exchange, the campus encourages new forms of learning, collaboration, and community life.
