

• PARKING STRUCTURE KOLBERMOOR
Kolbermoor, DE

2013–2014

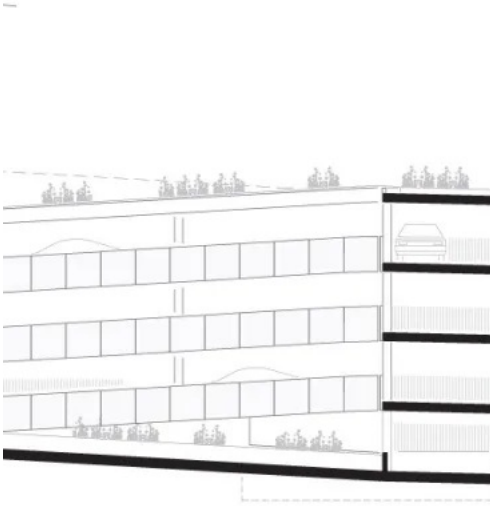

The Rathausareal Parking Structure, located in the heart of Kolbermoor, serves as a key gateway to the inner city while directly supplying the town hall and the central shopping district. What sets this structure apart is its integration of the public realm with a daylight-optimized, sustainable architectural design. The spiraling concept connects the city park with the streetscape, offering a welcoming public gateway.
