

• POTSDAMER PLATZ QUARTIER Berlin, DE

2017–2025

Berlin's Potsdamer Platz is set to become an appealing, future-oriented urban quarter, with refined streets and squares complemented by public spaces that foster an attractive setting for both living and working. Acting together with Schulze+Grassov, Bartenbach GmbH, Stefan Wallmann Landschaftsarchitekten, Ramboll Studio Dreiseitl, and other partners, we conducted a series of studies to examine ways of strengthening the identity of this previously undefined quarter.
