

• PRIMARY SCHOOL INFANTERIESTRASSE
Munich, DE

2016–2020

As part of a new initiative to advance school construction in Munich, we've developed an elementary school with five classes per grade, following the so-called learning house concept. The complex also includes a double sports hall, a children's house, and an underground parking facility. It is situated south of the Olympic Park, where a new center for living, knowledge, business, and culture is taking shape.
