• PUBLIC SECONDARY SCHOOL NEUBURG AN DER DONAU
Neuburg an der Donau, DE

2015–2021

The new Public Secondary School Neuburg an der Donau (formerly Paul-Winter School) is designed around the concept of a village, with six learning studios clustered along a central "school street." This circulation space offers orientation and fosters communication. The facility also includes a gymnasium with two courts and outdoor playing fields, a cafeteria, and spaces for full-day care.
