

• STEINFURT CAMPUS, RECONSTRUCTIONS OF BUILDINGS C+Q AND NEW PARKING STRUCTURE, FH MÜNSTER (UNIVERSITY OF APPLIED SCIENCES) Steinfurt, DE

2022–2028

For the Münster University of Applied Sciences, we have reconstructed two laboratory buildings serving multiple departments at the Steinfurt campus, about 30 kilometers outside Münster. The structures' massing is animated by projecting and recessed elements, with protruding balconies and outdoor walkways enhancing a sense of transparency and openness.
