

• THE METROPOLITAN SHEPTYTSKY CENTER, UKRAINIAN CATHOLIC UNIVERSITY LVIV
Lviv, UA

2012–2017

The Metropolitan Sheptytsky Information Research Center rises as a shimmering block from the heart of the new campus built by the Ukrainian Catholic University (UCU) in Lviv. The first building of its type built in post-Soviet Ukraine, it includes a library for the humanities, academic and research spaces, and public spaces. The center thus bridges the academic world and the larger community.
