

• CAMPUS GIESING - VERSICHERUNGSKAMMER BAYERN
Munich, DE

2023–2029

The new campus for the public insurance company Versicherungskammer Bayern (VKB) comprises three standalone structures added to the existing building block at the northern edge of the site. Together, these structures form an interconnected, state-of-the-art working environment, while an imaginative landscape design transforms the surrounding green spaces into an inviting park equally attractive for local residents.
